3. Better Absorption & Compliance

Contains Piperine to enhance bioavailability and Melatonin for oxidative protection and sleep cycle regulation — **key in fertility.**

⚠ Common Issues with Other Uterine Tonics

Most competing brands lack complete formulation, have poor Myo-D-Chiro balance, low bioavailability, no antioxidant support (like CoQ10/NAC), and include synthetic fillers — limiting efficacy and compliance.

Competitive Advantage

1. Contains L-Carnitine, CoQ10, Lycopene & Ashwagandha, all backed by studies in male infertility.
2. Superior to basic formulas — adds essential antioxidants (Selenium, Omega-3) + Vitamin D3 & B12 for hormonal & testicular health.

⚠ Problems with Traditional Supplements

Poor absorption, unwanted GI side effects, single-pathway action, low compliance, and lack of synergistic nutrients.
